INSPIRING MONTHS

First pilgrimage of the year

BY GAZ OLINE

The first of three pilgrimages this weekend was a great success. 12.545 participants and 8.300 female workers to refill the food supply over 120 miles to New Solar.

One of our annual participants, Pedro Leum, suffered, but was a happy man when he reached the finish. "The weather conditions were not ideal: it was very warm and dry, but luckily there was enough water to drink. I am very happy my wife helped to refill the food supply and that she isn't allowed to join us in our pilgrimage. Only men can do this."

Below you can see our tough men in action.
